

Delivering Project Materials

The Colon Cancer Prevention Project is beginning a push to get our "Are You at Risk?" brochures and other Project materials in more locations. YOU CAN HELP!

Desired Traits

- ☉ Driver's license is required
- ☉ Friendly disposition
- ☉ Willingness to represent the Colon Cancer Prevention Project in a professional capacity

Duties

- ☉ We have identified a number local doctor's offices and business that are willing to promote our materials. We need volunteers to deliver the brochures (usually in groups of 100 brochures) to the doctor's office or business. We need them hand-delivered so we can save on postage and put more of that money into programming.
- ☉ We would need volunteers to swing by the Project office, pick up the brochures and then just drop them off at the predetermined locations. Simple as that. You can deliver to just a few locations or all over your city. It's up to you!
