

Colon Cancer Prevention Project

A Year in Re(ar)view

This year has been stressful to say the least, but thanks to you, the pandemic didn't stop our programming. Thanks to your support, we were able to continue our Fighters' Fund, keep our survivors' support group running, air a new documentary about early-age-onset colon cancer, educate more first responders about their cancer risks, and help pass important laws.

And while many other nonprofit organizations are closing their doors, we are grateful we can continue fighting to stop preventable colon cancer. Thank you for your support in 2020, and here's to an even better 2021!

HIGHLIGHTS OF 2020

The Fighters' Fund

We have helped 462 people through this grant program since its inception.

First Responder Education Program

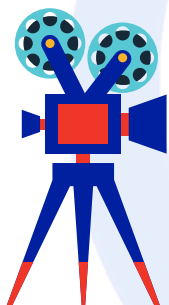

We've educated 180 first responders in Kentucky and Southern Indiana on the effects of carcinogen-causing gases from fires and the need for proper protection to avoid more cases of cancer.

Survivor's Support Group

We began hosting a monthly support group that allows survivors of colorectal cancer to share their stories and learn more ways to cope with this disease.

"Preventing a Killer" Documentary

In July, our "Preventing a Killer" documentary aired on KET. This 30-minute documentary about early age onset colon cancer can be found at:

<https://coloncancerpreventionproject.org/education-prevention/preventing-a-killer>

Genetic Testing Legislation

Beginning in January 2020, testing for hereditary cancers (including colon, pancreatic, gastric, breast, ovarian, endometrial, pancreatic, prostate, melanoma, and others) for people who meet national guidelines for testing will be completely covered by private insurance in Kentucky as a preventative service, thanks to a new law that was passed by the General Assembly. For more details about this, and other legislative work, please contact our legislative representative, Jason Baird (jason@limestonegrp.com).

A Year in Re(ar)view

We have been very busy bringing much-needed programs to the communities we serve. We have also raised almost \$150,000 across our 3 signature events and received over \$40,000 in grants. But we still need some help!

If you're interesting in making a donation to help continue our work, we have a variety of ways set up for you, depending on your preference.

MAIL

You can mail checks to:
Colon Cancer Prevention Project
PO Box 4039
Louisville, KY 40204

ONLINE

Visit <http://kickingbutt.org/donate> to make a secure donation. You can either make a one-time donation or set up monthly, quarterly, or annual donations.

PHONE

Call us at **(502) 272-2397** to place a secure donation over the phone.

Thank you for everything you have done to help us continue our mission of eliminating preventable colon cancer death and suffering. We are saving lives every day, and we couldn't do it without your help!

Wishing you and your families a safe and happy holiday season. We can't wait to see you in 2021!

Warmest Regards,

The Colon Cancer Prevention Project
